

## Seaweed powder Potassium + CE fertilizer

PFC 1. A. 1. SOLID ORGANIC FERTILIZER NK, 1.5-20

CMC1: Virgin substances and mixtures

Seaweed extract, Ascophyllum nodosum, extract CAS n. 84775-78 -0

Total nitrogen (N) 1.5 % Organic nitrogen (N) 1%

Potassium oxide (K<sub>2</sub>O) 20 % Potassium (K) 16.6%

Organic carbon (C<sub>org</sub>); 30%

Dry matter content 95%

C/N ratio 20

water soluble granule

### MANUAL:

It is given diluted in water by spraying potassium on the plant and along with watering to add to plants, e.g. roots, tubers, berries and fruit plants and as autumn fertilizer.

Spraying as soon as the plant has developed leaves. Do not spray on edible parts of the plant such as lettuce leaves or when the raw stage begins.

Fruits and vegetables: 2-3 treatments every 7-10 days.

Dosing: 0.5 kg -1 kg/ha/spraying or watering. When spraying 200 l – 400 l water / ha, mixed with irrigation water, 500 l – 1000 l water/ha

Store the product in a dry place away from direct sunlight. Storage temperature 0-40 °C. Partially used or damaged bags must be tightly closed. To avoid risks to human health and the environment, follow the recommended instructions for use of this fertilizer product. P102: Keep out of reach of children. P270: Do not eat, drink or smoke while using this product. Dispose of packaging properly after use.
